

Index Volume 34  
April 2015 to March 2016

**A**

AHS guidelines, following; 34:2, P 3

Albuterol toxicosis; 34:2, P 2

Alfaxalone, IM, SQ use; 34:8, P 1

Algal blooms poisoning; 34:9, P 3

Allergy

Allergy, fleas, cat, ruling out; 34:2, P 4

Allergy, food, prevention; 34:1, P 1

Allergy, preventing the allergic response; 34:3, P 2

Alpha-2 antagonists; 34:12, P 4

Analgesia

Analgesia, at home; 34:6, P 2

Analgesia, bony tumors; 34:3, P 4

Analgesia, cat; 34:5, P 3

Analgesia, gabapentin; 34:1, P 2

Analyzers, quality control of; 34:2, P 2

Anaphylaxis, steroids use; 34:6, P 1

Anesthesia

Anesthesia issues; 34:7, P 4

Anesthesia, alfaxalone, IM, SQ use; 34:8, P 1

Anesthesia, complications; 34:5, P 4

Anesthesia, geriatric, emergence delirium; 34:6, P 2

Anesthesia, geriatric; 34:10, P 4

Anesthesia, local, misconceptions; 34:1, P 2

Antibody titers, to assess immunity; 34:1, P 4

Antifreeze poisoning, treatment; 34:8, P 4

Antivenom, newly developed; 34:7, P 1

Apoquel, side effects; 34:9, P 1

Atopy

Atopy, and steroids; 34:4, P 1

Atopy, associated with perianal pruritus; 34:10, P 3

Atopy, different immunotherapy; 34:11, P 1

Atopy, new understanding of; 34:2, P 3

Atopy, protective body suits; 34:12, P 4

Atopy, using Temaril-P; 34:5, P 2

Aural hematoma, treating; 34:1, P 2

## Avian

- Avian, feather picking; 34:8, P 4
- Avian, moribund bird, management of ; 34:6, P 4
- Avian, venipuncture; 34:2, P 4

## B

- Behavior guidelines from AAHA; 34:11, P 1
- Behavior, role of leashes; 34:10, P 2
- Bleach, using diluted product; 34:11, P 2
- Blindness; 34:8, P 2
- Bone marrow sampling technique; 34:6, P 1
- Boswellia serrata*, dosage for canine OA; 34:6, P 1
- Budesonide, for IBD; 34:8, P 2

## C

- Calcitriol dosing; 34:4, P 3
- Cardiology case assistance; 34:8, P 4
- Cardiomyopathy, hypertrophic, cat; 34:5, P 1
- Castile soap, for wound cleaning; 34:9, P 2
- Cataracts, prevention; 34:5, P 1
- Cats and meat, do they require it; 34:4, P 4
- Cellulitis (juvenile) vs. demodicosis; 34:5, P 2
- Cerenia, for pruritus; 34:1, P 1
- Chives toxicity; 34:4, P 3

## CKD

- CKD, and gastrin; 34:5, P 3
- CKD, and hyperthyroidism; 34:9, P 3
- CKD, diets for; 34:7, P 4
- Clients, bringing back; 34:8, P 1
- Clindamycin, extralabel use; 34:4, P 1
- Cobalamin, importance of; 34:3, P 3
- Coccidiosis, treating with Ponazuril; 34:5, P 4
- Corneal ulcers
  - Corneal ulcers, identifying; 34:11, P 3
  - Corneal ulcers, no 3<sup>rd</sup> eyelid flap; 34:7, P 1
  - Corneal ulcers, uncomplicated, superficial; 34:7, P 3
  - Corneal ulcers, using serum; 34:2, P 1
- C-section, predicting time for; 34:5, P 4
- Cyclosporine, using with ketoconazole; 34:4, P 4
- Cyclosporine, using; 34:10, P 4
- Cystitis, treating; 34:6, P 2

## D

Dakin's solution, as topical therapy; 34:4, P 2  
Demodicosis  
    Demodicosis vs. juvenile cellulitis; 34:5, P 2  
    Demodicosis, canine, diagnosis; 34:7, P 2  
    Demodicosis, don't forget the feet; 34:4, P 4  
Dental, cat, dry food and dental health; 34:9, P 2  
Dermatophytosis vs. pemphigus foliaceus; 34:7, P 3  
Dermatophytosis, using propolis; 34:6, P 2  
Dermatoses, importance of bathing; 34:6, P 4  
Dermatoses, omega 6 oils; 34:1, P 3  
Diabetes, cat, determining which go into remission; 34:10, P 3  
Diabetes, cat, practitioner's approach; 34:9, P 1  
Diabetes, DKA, treating the healthy DKA patient; 34:10, P 4  
Diabetes, DKA, treating with long-acting insulin; 34:8, P 2  
Diarrhea, chronic, cat; 34:2, P 3~34:7, P 3  
Diet  
    Diet, gluten free; 34:9, P 3  
    Diet, grain-free, myths; 34:10, P 2  
    Diet, post-pancreatic; 34:10, P 4  
Dietary trials, selecting food; 34:9, P 2  
Disinfectant, diluted bleach; 34:11, P 2

## E

Effexor toxicosis; 34:7, P 4  
Emergency kit, for hunting dogs; 34:9, P 2  
Emetic agents; 34:8, P 4~34:11, P 1  
End of life care; 34:11, P 3~34:12, P 2  
Ephedra/ma toxicosis; 34:2, P 3  
ER tips; 34:12, P 1  
Ethylene glycol poisoning, treatment; 34:8, P 4  
Ethylene glycol, sources; 34:1, P 2  
Ethylene tests; 34:9, P 4  
Euthanasia, effect on feti; 34:12, P 3  
Exotic meats, sources of; 34:11, P 3

## F

Fear in cats, reducing; 34:10, P 1  
Feeding tube, checking where is; 34:1, P 3  
Ferrets, behavior in the exam room; 34:11, P 3  
FHV-1 ulcerative keratitis, treatment options; 34:3, P 2  
FHV-1, idoxuridine for; 34:10, P 1  
Fish oil, dosage; 34:2, P 1

Flea allergy, cat, ruling out; 34:2, P 4  
Food allergy, prevention; 34:1, P 1  
Food allergy, sources of exotics meats; 34:11, P 3  
Furosemide, adjusting dose; 34:7, P 3

## G

Garlic toxicity; 34:4, P 3  
Gastrin, and chronic kidney disease; 34:5, P 3  
Generic drugs, profitability of; 34:2, P 1  
Geriatric pets, altering drug dose; 34:6, P 2  
GI disease, cat, chronic; 34:6, P 3  
GI disease, key points in treating; 34:4, P 1  
Gingivitis vs. stomatitis; 34:8, P 2  
Glucose meters, comparison of; 34:3, P 2  
Glucose meters, making more accurate; 34:6, P 3  
Gluten free diets; 34:9, P 3  
Grapes toxicity; 34:10, P 2  
Guinea Pigs, pruritus; 34:1, P 4

## H

H3N2 canine influenza virus; 34:12, P 2  
Heart disease  
    Heart disease, adjusting dose of furosemide; 34:7, P 3  
    Heart disease, and pimobendan; 34:4, P 4  
    Heart disease, and respiratory rate; 34:2, P 2  
    Heart disease, benefit of ACE-1; 34:10, P 1  
    Heart disease, benefit of spironolactone; 34 :4, P 4  
Heart disease, cat, bronchodilation in; 34:8, P 3  
Heartworm guidelines, following; 34:2, P 3  
Heartworm screening cat, is it necessary; 34:11, P 1  
Heartworm testing, cat; 34:9, P 3  
Hepatitis, chronic, management; 34:4, P 3  
Herpes, all cats have it; 34:2, P 2  
Hip dysplasia, be sure of diagnosis; 34:6, P 2  
Hyperadrenocorticism, a clinical disease; 34:2, P 4  
Hypercalcemia, cat; 34:5, P 2  
Hyperthyroidism and kidney disease; 34:4, P 3~34:9, P 3

## I

IBD vs. lymphocytic lymphoma; 34:7, P 2  
IBD, Budesonide; 34:8, P 2  
IBD, feline, dosing regimens; 34:9, P 4  
Idoxuridine, for FHV-1; 34:10, P 1

Immunity, antibody titers to assess; 34:1, P 4  
Internet, what pet owners are reading; 34:9, P 1  
Itraconazole, dosing of small animals; 34:10, P 4  
Ivermectin sensitivity, determining which dogs; 34:7, P 2

## J

Juvenile vulva/vaginitis; 34:1, P 2

## K

Keratotomy, using diamond burr; 34:3, P 4  
Keratitis, FHV-1, treatment options; 34:3, P 2  
Kidney diets; 34:1, P 2  
Kissing lesions; 34:1, P 3  
Kittens, orphaned, care of; 34:9, P 4

## L

Laundry detergent pods, ingestion of; 34:1, P 3  
Leashes, role in behavior; 34:10, P 2  
Leptospirosis, infection control; 34:6, P 3  
Limb amputation, owner acceptance; 34:8, P 3  
Lumbosacral stenosis, medical management; 34:6, P 4  
Lymphocytic lymphoma vs. IBD; 34:7, P 2

## M

Morphine myths; 34:10, P 3  
Mouth gag, spring-loaded, hazards of; 34:3, P 1  
MRSP, and suture material; 34:12, P 4  
Mushroom poisoning; 34:5, P 4

## N

Neonate, antibiotics for; 34:1, P 3  
Nissin, as a topical therapy; 34:3, P 2  
NSAIDs, benefits of long-term use; 34:5, P 2  
NSAIDs, early use of; 34:1, P 1  
Nutritional myths; 34:12, P 1

## O

Obesity, healthy, paradox of; 34:9, P 2  
Oclacitinib, use in cat; 34:6, P 1  
Onion toxicity; 34:4, P 3  
Opioids, myths; 34:5, P 3~34:11, P 4  
Opossums, as a rabies risk; 34:11, P 2

Oral tumors, biopsy of; 34:12, P 1

#### Osteoarthritis

Osteoarthritis, cat, behavioral changes; 34:12, P 1

Osteoarthritis, role of exercise; 34:8, P 3

Osteoarthritis, use of *Boswellia serrata* in the dog; 34:6, P 1

#### Otitis

Otitis, be sure to check for Demodex; 34:6, P 3

Otitis, etiology; 34:2, P 2

Otitis, fungal, treating; 34:2, P 1

Otitis, in the Siamese; 34:8, P 1

Otitis, ruptured tympanum, topical antibiotics for; 34:12, P 3

Otitis, topical products for; 34:12, P 3

Otitis, topical therapy; 34:1, P 2

Outdated drugs; 34:11, P 2

Ovulation timing; 34:4, P 1

Oxytocin, new recommendations; 34:3, P 1

## P

Pannus; 34:3, P 3

Parasite control, profitability of; 34:2, P 2

Parturition, monitoring device; 34:8, P 3

Parvo, glutamine supplementation; 34:3, P 4

Parvo, treating as an outpatient; 34:3, P 3

Pemphigus foliaceus vs. dermatophytosis; 34:7, P 3

#### Pet foods

Pet foods, and corn; 34:8, P 3

Pet foods, by-products in; 34:6, P 2

Pet foods, meat as first ingredient; 34:7, P 1

Pharmacology myths; 34:12, P 2

Phenobarbital, weaning off of; 34:2, P 4

Pimobendan, for heart disease; 34:4, P 4

Ponazuril, for treating coccidiosis; 34:5, P 4

Probiotics, dosage; 34:5, P 3

Pruritus, Cerenia; 34:1, P 1

Puppy socialization; 34:12, P 4

#### Pyoderma

Pyoderma, shampoo therapy; 34:12, P 3

Pyoderma, topical chlorhexidine; 34:11, P 2

Pyoderma, treat like pyoderma; 34:10, P 1

Pyoderma; 34:2, P 3

## R

### Rabbit

Rabbit tips; 34:7, P 4

Rabbit, dose of tramadol; 34:8, P 4

Rabbit, importance of hypothermia; 34:12, P 4

Rabbit, sedation; 34:4, P 2

Raisins toxicity; 34:10, P 2

Rehab, cryotherapy; 34:11, P 2

Reputation, protecting online; 34:7, P 3

## S

Sedation, combo, for the cat; 34:1, P 1

### Seizures

Seizures, cat; 34:9, P 3

Seizures, cats, new cause; 34:8, P 3

Seizures, cluster; 34:9, P 4

Seizures, KBr; 34:4, P 2~34:11, P 4

Seizures, status epilepticus; 34:7, P 1~34:12, P 3

Seizures, treatment no-nos; 34:5, P 3

Selenium sulfide shampoo; 34:7, P 3

Serotonin syndrome; 34:11, P 3

Shampoo, selenium sulfide; 34:7, P 3

Shock, what fluids to use; 34:7, P 2

Sleep aids toxicosis; 34:3, P 2

Spay, determining if bitch is spayed; 34:12, P 2

Spironolactone, use in heart disease; 34:4, P 4

Status epilepticus; 34:7, P 1~34:12, P 3

Stomatitis vs. gingivitis; 34:8, P 2

### Surgery

Surgery, C-section, predicting time for; 34:5, P 4

Surgery, IM pins; 34:5, P 1

Surgery, intestinal anastomosis; 34:11, P 3

Surgery, limb amputation, owner acceptance; 34:8, P 3

Surgery, suture material and MRSP; 34:12, P 4

Surgery, symphysiodesis; 34:1, P 4

Suture material and MRSP; 34:12, P 4

Symphysiodesis, juvenile; 34:1, P 4

## T

Tarsorrhaphy; 34:8, P 2

Temaril-P, using for atopy; 34:5, P 2

Toad intoxication, dog; 34:3, P 3

Topical medications, evaluating; 34:4, P 2

Topical therapy, Dakin's solution; 34:4, P 2  
Transfusion, dog blood to cat; 34:9, P 1  
Trauma patient, handling of; 34:3, P 1  
Tyrosine, as a training aid; 34:4, P 1

## U

Umbilicus, taking care of; 34:6, P 4  
Urethral obstruction, giving fluids; 34:6, P 4  
Urethral obstruction, using prazosin; 34:6, P 4  
Urine collection, ideas for; 34:11, P 3  
Urine collection, midstream or cystocentesis; 34:3, P 2  
UTI, complicated; 34:5, P 2  
UTI, recurrent; 34:5, P 1

## V

Vaccination, Dobermans and Rottweilers; 34:2, P 4  
Vaccination, intervals; 34:9, P 4  
Vaccines, non-core; 34:7, P 4  
Vaginitis, juvenile; 34:1, P 2  
Venlafaxine toxicosis; 34:7, P 4  
Vulva, juvenile; 34:1, P 2

## W

Waiting room, changing name; 34:1, P 4  
Weight loss plan for cats; 34:8, P 1~34:10, P 3  
Words, using the right ones; 34:10, P 3  
Wound cleaning, using castile soap; 34:9, P 2

## X

Xylitol  
    Xylitol, finding amount on label; 34:3, P 4  
    Xylitol, in chewing gum; 34:4, P 2  
    Xylitol, now in some peanut butters; 34:6, P 1
